SELLING MOVEMENT ADDS ANIMATION

Discouragement of Speculative Sentiment Attributable to Various Influences.

SALES OF STOCKS ARE LARGE
Urgent Selling, Begun Monday, Is Resumed and Becomes Market Feature.

NEW YORK, August 6.—The dealing in stocks by noon to-day had passed the figure of one million shares, a record for the whole of yesterday. A weak and unsettled market and the active selling movement, heralded by the explanation of the increased animation of dealings. There were various features in the day's news which were not liked and which were given responsibility for the discouraged speculative sentiment. Most direct interest was shown in the immediate vicinity of the Stock Exchange in the identity of the large sellers of stocks as promising to give a clue to the motives and to the standing and influence of the sellers. The aggressive or urgent selling which developed late in yesterday's market and continued over-to-day was a new feature of the market. Newly returned tourists from abroad, where important financial misfortunes as well as holiday enjoyment were supposed to be an object, were subjected to gossip and conjecture regarding the selling. A number of last week's arrivals of this element are men in the front rank of capitals.

Conferences were alleged to have occurred with bankers and other interests at which the foreign situation was discussed, and which had been followed by the selling movement in the stock market. Of the conditions at home, most stress was laid on the agitation among corporations.

The series of measures directed against railroads in a group of Southern States, notably Virginia, Alabama, North Carolina and Arkansas, fed the apprehension felt by market operators on the subject of prosecutions that are apprehended against corporations. The fact that Standard Oil itself continued to be little affected did not heal the anxiety on the subject.

The shorts took their profits before the day was over and worked a substantial rally, but it was all lost again and the market closed weak.

Bonds were easy. Total sales par value, \$1,150,000. United States 2s declined 1-1/4 per cent. on call.

Total sales of stocks to-day were 905,600 shares.
